## Machine Cleaner 5200

### Product Description

Machine Cleaner 5200 is an alkaline degreaser containing a broad spectrum bactericide, organic solvents, and surfactants in an aqueous solution for machine sump cleaning applications.

### Features and Benefits

Machine Cleaner 5200 is an excellent emulsifier of oil and grease. Product does not contain any petroleum solvents. Product not only cleans machine sump, but also eliminates bacteria, mold, and fungus.

### Applications

Mix 5% to 10% with water, add to machine sump, and circulate for approximately 1-2 hours depending on contamination. Upon completion of cleaning, remove mixture from sump and rinse sump with water. Immediately add new coolant mixture to sump and circulate for 5-10 minutes washing down metal surfaces inside of machine.

Consult your account manager or our technical support team for questions regarding compatibility.

### Typical Properties

#### Property

Appearance  
Density lb/gal.  
Specific Gravity  
Viscosity @ 40 C (cSt)  
Pour Point, F  
Flash Point (COC) F  
PH @ 5% Dilution  
Soluble in Water

#### Specifications
